

THE PREMIUM OUTDOOR COLLECTION

BIOCLIMATIC PERGOLAS / GLAZING / ZIP SCREENS / CARPORTS

DESIGNED FOR THE WAY YOU LIVE OUTDOORS

Outdoor living, beautifully considered.

Create a more comfortable and versatile outdoor space with the IGS Premium Outdoor Collection: architectural aluminium systems, adaptable shading, glazing and carefully integrated accessories.

DESIGNED AROUND YOUR SPACE

Choose from bioclimatic pergolas, sliding glazing, vertical glass systems, motorised ZIP screens and contemporary carports. IGS provides project advice, survey and professional installation.

Bioclimatic pergolas

MYKONOS

Minimalist design with controlled solar shading and ventilation. Freestanding configurations advertised up to 6.5 x 4.5 m or 6.5 x 5.5 m.

SANTORINI

Large-span architectural design. Configurations advertised up to 7.5 x 7.5 m, with fewer posts possible across larger spaces.

OPTIONAL INTEGRATION

Sliding glazing | ZIP shading screens | LED lighting | Heating

Available options and structural suitability depend on system and configuration.

Glass, light and flexibility

Elegant glazing systems help provide shelter while retaining the connection between indoor and outdoor spaces.

SLIDING GLAZING

Contemporary glass panels for adaptable outdoor enclosures. Configurations and frame arrangements are project-specific.

VERTICAL SLIDING GLASS

The G120 guillotine system uses motorised vertical glass movement. A technical survey and appropriate electrical provision are required.

Control the atmosphere

ZIP SCREENS / LIGHTING / COMFORT

MOTORISED ZIP SHADING

Fabric shading screens can provide adjustable privacy and solar control.
Select fabrics and finishes to suit the project and surrounding architecture.

FINISHING TOUCHES

Integrated LED lighting, automation and optional heating can help create an inviting space beyond daylight hours.

Architectural carports

SINGLE & DOUBLE CONFIGURATIONS

Contemporary aluminium vehicle shelters with integrated drainage. Roof options shown in the manufacturer literature include photovoltaic panels, aluminium panels and polycarbonate, subject to specification.
